

Revolutionize the Packaging Market With Ultimate Mock-up/Proofing Solutions

Creating highly color-accurate mock-ups and contract quality packaging proofs have been a difficult and costly process up to now, being dominated by expensive systems, which are difficult to operate.

With the Roland Metallic and UV-LED inkjet printer&cutters and the ORIS Color Tuner // Web from CGS, there finally is a ground-breaking solution available, revolutionizing proofing, prototyping and small batch production of a wide range of flexible and rigid packaging.

LEC-330

UV-LED Inkjet Printer&Cutters

VersaUV

54" LEC-540 / 30" LEC-330

Print directly on a wide array of original substrates

VS-420

Wide-format Metallic Inkjet Printer&Cutters

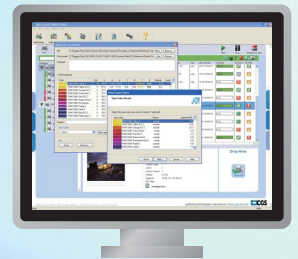

VersaCAMM

64" VS-640 / 54" VS-540

42" VS-420 / 30" VS-300

Contract-quality packaging proofs and mock-ups with metallic and white spot colors at a fraction of current cost

PLUS

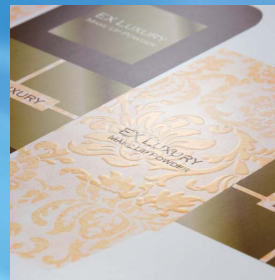

ORIS
HYBRID PROOFING
»COLOR TUNER // WEB«

VersaUV and ORIS Color Tuner // Web Features:

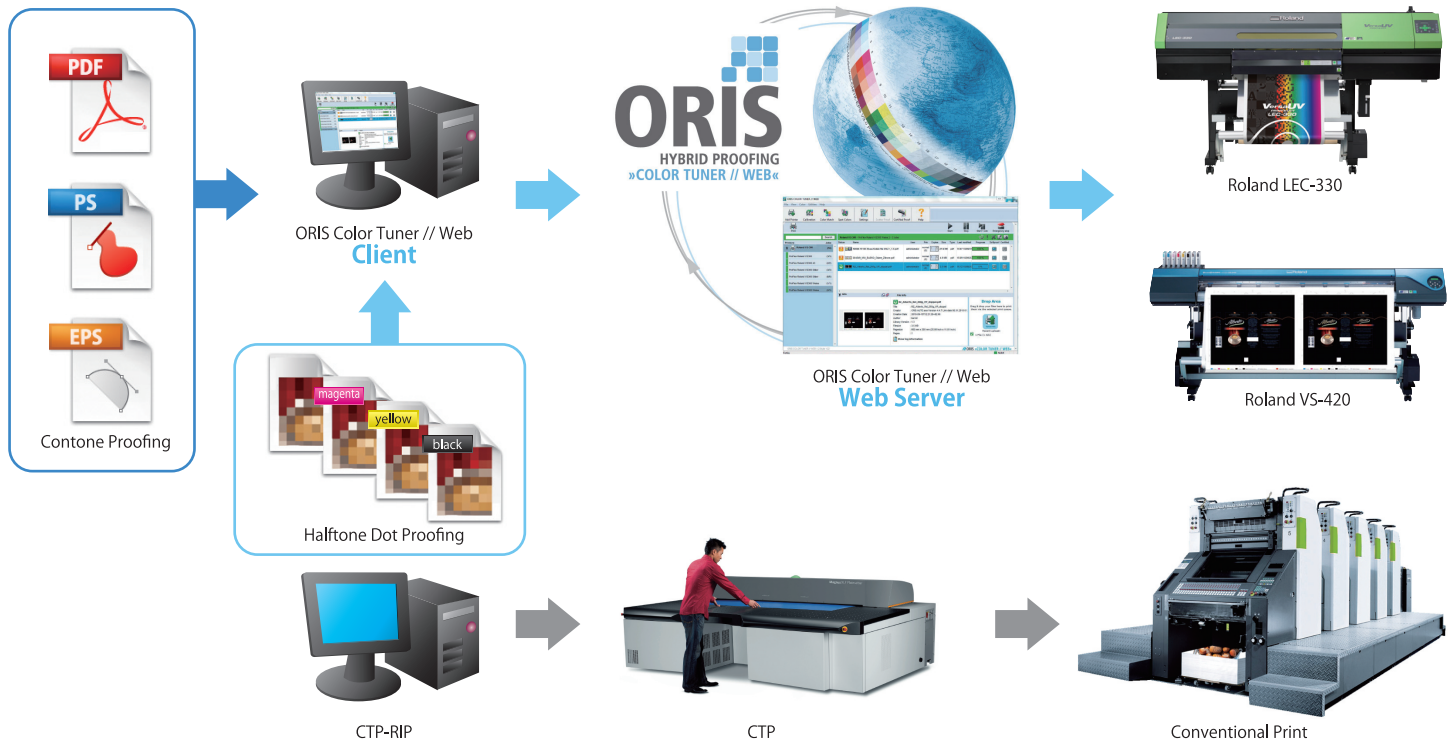

- ▮ Print directly on a wide array of original substrates
- ▮ 4-D iterative color management for ultimate color accuracy and consistency
- ▮ Embossing, gloss and matte spot varnishing with gloss ink
- ▮ High-opacity white ink for printing on transparent media
- ▮ Contone and halftone output with 1-bit TIFF support
- ▮ Print & Cut functionality for labels and stickers
- ▮ Web-based application including softproof and proof certification

VS Series and ORIS Color Tuner // Web Features:

- ▮ Accurate reproduction of metallic spot colors and white
- ▮ Unrivaled color space for flexible packaging reproduction
- ▮ 4-D iterative color management for ultimate color accuracy and consistency
- ▮ High-opacity white ink for printing on transparent media
- ▮ Contone and halftone output with 1-bit TIFF support
- ▮ Print & Cut functionality for labels and stickers
- ▮ Web-based application including softproof and proof certification
